## WALL/FLOOR VIDEO CONFERENCE MOTORIZED

### Smooth and stylish access for everyone

Do you need to mount large and heavy displays or touch sensitive displays on a regular wall? With a quick, easy and stylish installation too? SMS Presence Wall/Floor VC Motorized takes your video conferencing to a new level.

SMS Presence Wall/Floor VC Motorized combines our unique Presence solution which completely hides cables and peripherals inside the body of the stand, with a smart design that shifts the weight to the floor.

#### Everyone can reach

This ensures that the stand itself uses very little floor space and you can mount very heavy displays on a regular wall.

It doesn't matter if the user is very tall, a child or wheelchair carried, everyone can reach thanks to the soft motorized height adjustment. The motorized height adjustment is readily available from a button at the side of the unit, behind the displays, and works for most markets (both 110 and 230 V).

Fine adjustment possibilities allows for edge-to-edge mounting of displays. The displays can be locked with the accompanying locking screw for personal safety, or with a padlock (not included) which provides increased protection from theft. The design is protected.

### QUESTIONS AND ANSWERS:

#### How do I gain access to the cables and equipment inside the product?

- Removable covers on the front of the product make it easy to gain access to cables and other media equipment.

#### Is my camera equipment compatible with the bracket?

- Yes, the product can be used with any camera. A camera shelf is sold as accessory which can easily be mounted above the display.
